Portal Overview

Navigation

Each new student’s application must be started by clicking the “ADD NEW STUDENT” button at the top right-hand side of the Admissions Portal home page. Any student with an “application in process” is listed under the Family on the right- hand side of the enrollment portal. All information will be entered within each specific student’s application. If you are submitting more than one application, some of the fields in the application will pre-fill based on your previous applications.

- To start click the “CONTINUE” button next to the student.
- Your progress is automatically saved at each step of the application. So, you can return to the application at a later time and pick up where you left off. In that case, simply click the “CONTINUE” button next to the student’s name.
- The process of completing the application will be repeated for each student with your family. However, all of the family specific information will be retained and pre-fill for each additional application within each family.
